

Count & Match

Count the candies in each set and match with the correct number

Answer key

Count & Match

Count the candies in each set and match with the correct number

The image shows a matching exercise. At the top, there are five boxes, each containing a different number of purple candies with white polka dots. Below these are five boxes containing the numbers 2, 5, 4, 1, and 3. Lines connect the boxes to show the correct matches: the first box (3 candies) connects to the number 3, the second box (4 candies) connects to the number 4, the third box (1 candy) connects to the number 1, the fourth box (5 candies) connects to the number 5, and the fifth box (2 candies) connects to the number 2.

Candy Count	Number
3	3
4	4
1	1
5	5
2	2
